

How to Start

Register your church at namb.net/Pipeline.

Watch for a confirmation email with your login access to explore the online content.

You will be contacted by a NAMB Multiplication Pipeline Coach to discuss available options for your participants in your local church.

Access is free for SBC Churches.

For questions, email pipeline@namb.net.

“The harvest is plentiful but the workers are few. Ask the Lord of the harvest, therefore, to send out workers into his harvest field.”

Matthew 9:37, 38

MULTIPLICATION

PIPELINE

*“Growing Leaders
In Your
Church!”*

What Is the Multiplication Pipeline?

The Multiplication Pipeline is an online learning tool for discipling and developing missional leaders and future church planting missionaries in your church. Individuals receive training in more than 20 areas of missional leadership through self-study, reflection and coaching.

Content Overview

Multiplication Pipeline training is comprised of 3 levels for progressive and flexible development:

Level One (L1): Equips individuals to live on mission by strengthening spiritual formation, biblical knowledge, servant leadership, and evangelism skills.

Level Two (L2): Prepares individuals for missional leadership and disciple-making while exploring a call to further missional involvement.

Level Three (L3): Explores models and methods of church planting and prepares individuals for their next steps as a church planter or a church planting team member.

Multiplication Pipeline Format

Designed to fit a September to May school calendar but flexible enough to implement on any schedule

Easily accessible via web-based platform compatible with mobile and desktop browsers

Requires learners invest approximately 2-3 hours per week

Coaches play a significant role in the growth experience and are encouraged to meet with participants at least twice a month

Online content is suitable for men and women and can be tailored to meet specific developmental needs

Each lesson follows a learn, integrate, and demonstrate design
